SAS Software

Our experience and transparent advice will guide you to the correct SAS Software procurement choice, license renewal or add-on to meet your business needs.

SAS Consultancy

Our team of SAS certified experts provides SAS Platform, SAS Data Analytics, SAS Data Science, SAS Solutions and Application Development expertise. Our reputation for flexibility and quality has resulted in trusted, valued consultancy relationships.

Data Science

We support you in maximising the value obtained from your data, using sophisticated knowledge and tools to enhance your business across Forecasting, Propensity Modelling, Segmentation, Data Mining and Reporting, Simulation and Optimisation.

SAS Training

We deliver exceptional training focused on improving SAS skills and techniques through the use of best practices. Our instructors bring real-world experience to the classroom with proven, effective learning methods and a practical approach during the training sessions. Choose from our standard curriculum or tailor a course to your organisation's needs.

SAS Managed Services

We provide confidence and assurance for processes that depend upon SAS Software, reducing risks and enabling your organisation to take opportunities and maintain competitive advantage through enhanced use of SAS.

Graduate Placement Programme

This programme offers our customers a risk-free recruitment opportunity to hire an Amadeus-trained, SAS certified graduate on a nine month placement. On completion, customers have the chance to recruit their graduate as a permanent member of staff.
