Consultancy

Our team of certified experts provide a full, end-to-end service specialising in platform deployment to cloud or on-premise infrastructure, data integration, data science and bespoke solution development. Our reputation for quality and flexibility is driven by our commitment to customer satisfaction and success.

Data Science

We support you in maximising the value obtained from your data, using sophisticated knowledge and tools to enhance your business across Forecasting, Propensity Modelling, Segmentation, Data Mining and Reporting, Simulation and Optimisation.

Managed Services

Amadeus' annual support contracts ensure our customers have confidence in the ongoing health and integrity of their analytics platforms. Tasks range from hot-fixing and troubleshooting unexpected incidents to cloud migration and scheduled maintenance.

Graduate Placement Programme

We offer our customers a risk-free recruitment opportunity to hire an Amadeus-trained, SAS certified graduate on a nine month placement. On completion, customers have the chance to recruit their graduate as a permanent member of staff.

Our SAS® services...

Software

Our experience and transparent advice will guide you to the correct SAS software procurement choice, license renewal or add-on to meet your business needs.

Training

We deliver exceptional training using effective learning methods and a practical approach to equip SAS users with improved skills and a focus on best practice. Choose from our standard curriculum or tailor a course to your organisation's needs.
