

# Cloud Services

Providing faster, flexible data science, analytics and data management services which scale with your business demands.

For more information about Amadeus' Managed Services support, visit [www.amadeus.co.uk/managed-services](http://www.amadeus.co.uk/managed-services)

For businesses looking to host their data analytics in the cloud Amadeus provides cloud services such as AWS and Microsoft to help your business grow. We encourage our customers to choose a cloud service that meets their corporate requirements and existing infrastructure. Your teams can be as much or as little as your budget and internal skills allow.

## Software as a Service (SaaS)

Our solution allows your analysts and data scientists to be productive whilst we manage the administration, maintenance and operational responsibilities of your analytics platform.

### SOFTWARE AS A SERVICE OR YOUR CLOUD

Project Management

Data Science Consultant

Analytics Consultant

Managed Service Consultant

Platform Engineer

## Your cloud

We install SAS on your cloud platform, giving you the flexibility of cloud analytics within your business' own infrastructure.

By choosing either of these cloud services, your organisation will benefit from the support of a Managed Service Consultant and a Platform Engineer to help you to maximise the performance of your cloud platform.
