

SAS Platform Engineer

A career with us is like no other, you'll be **challenged**, you'll be **inspired** and you'll achieve **success**.

Amadeus Software are looking for a SAS Platform Engineer to help us fulfil an ever increasing number of exciting SAS Consultancy and Support projects.

SAS Platform Engineer - job details

This is an exciting role and you will work in collaboration with your colleagues to deliver projects and continually refine Amadeus' support propositions. Your primary duties and responsibilities will include:

- Deployment of SAS environments on customer sites (installation training will be provided if not already skilled)
- Liaison with customers to facilitate implementations
- Creation of high quality documentation
- Maintenance of existing platforms and provide support to existing customers
- Maintain SAS Institute's relevant Certification
- Perform ongoing study of industry developments
- Train and mentor technical staff
- Act professionally and as an ambassador for Amadeus Software.

Applicants must have:

- Minimum of a BSc (Hons) degree in a numeric or scientific discipline
- A minimum of three years' SAS administration or installation experience. This should include some of the following SAS solutions: SAS Grid, SAS® Office Analytics, SAS® Visual Analytics, IBM Spectrum LSF Process Manager. Deployments of other packages is desirable as well as working knowledge of deployments in cloud-based systems
- Infrastructure knowledge on storage, networks and operating systems
- Use and administration of the SAS platform. SAS Programming skills are desirable
- Strong communication skills as well as good organisational skills.

In return, we offer:

- Remote working option
- Competitive salary
- Up to 31 days' holiday plus St George's day
- Profit and reward bonus
- Support for obtaining recognised industry certifications
- Pension contributions (salary sacrifice available), subsidised health care scheme and childcare vouchers
- Travel, accommodation and subsistence expenses when working offsite
- Support for obtaining recognised industry certifications
- Membership to professional bodies
- Company funded events. Past events include weekends to Amsterdam, Budapest and Barcelona. UK-based activities have included indoor skydiving and skid control at Silverstone.

To apply
