

SAS Visual Analytics Workshop

One Day

Audience

This workshop is designed for computer users who wish to learn how to explore and visualise data with SAS Visual Analytics in SAS Viya.

Prerequisites

Attendees will be expected to have some knowledge of SAS Viya however, there are not any explicit prerequisites to complete the workshop.

Objectives

This is a one-day workshop of instructor lead tuition, where attendees will see live demonstrations and get lots of hands on experience. To begin with, the focus will be on an introduction to the SAS Visual Analytics environment and reporting interface. The workshop will then move on to cover how to develop dynamic and interactive reports and distribute them to others.

SAS Visual Analytics Workshop

One Day
